SUMMARY

I love exploring advanced technologies while engaging with end-users. My passion is to build products that serve people better, including you and me.

- **Tech-Savvy:** data-driven professional with expertise in machine learning and API products, specializing in scalable data solutions, integrations, and modeling. Experienced in full-stack development with CS degree, adept at bridging needs with technical execution to drive measurable customer outcomes.
 - **Customer-Centric:** extensive customer-facing experience in understanding customer needs and delivering tailored solutions; proven track record of building lasting relationships with technical and non-technical stakeholders, advocating for customers, and driving business growth.
 - **Cross-Functional:** multi-disciplinary backgrounds across business, technology, UX design, and Agile development, powering seamless collaboration with product managers, engineers, designers, and leadership teams to achieve strategic growth initiatives in fast-paced environments.
-

SKILLS

- **Project Management:** Jira, Notion, Confluence, MS Project
 - **Data:** SQL, API, Databricks, Jupyter Notebook, Pandas, Tableau, MS Excel
 - **Programming:** Python, Django, JavaScript, React, Java, C, R, HTML, CSS, Github
 - **Design:** Figma, Adobe XD, Photoshop, Illustrator, Miro
 - **Language:** English, Mandarin
-

WORK EXPERIENCE

RIBBON HEALTH (Series B Data Company), Solutions Engineer

June 2023- Present

- Lead \$3.7M+ ARR enterprise accounts, overseeing customer onboarding, product solutioning, technical implementation, and strategic data advisory
- Guide complex API implementations and data integrations, collaborating with 20+ product managers, engineers, designers, SMEs, and business stakeholders
- Designed and executed \$500K+ proof-of-concepts (POCs), performing advanced data analysis and modeling to validate solution performance and deliver actionable insights
- Influence product roadmap as voice of the customer, identifying gaps, diversifying offerings, and driving QA initiatives that improved data accuracy by 6%
- Automated SQL and Databricks workflows, reducing analysis time from hours to seconds and accelerating customer turnaround by 20%+
- Reduced data delivery delays by 30% through cross-team dashboards; created a Data Solutions Team Wiki to capture institutional knowledge and scale best practices

WOLVERINESOFT GAME STUDIO (Student-Run Studio Since 1999), Producer

August 2022- May 2023

- Led 25+ interdisciplinary members to develop game by arranging production timeline, facilitating studio-wide meetings, and determining departmental priorities across art, design, programming, and audio
- Defined project scope, oversaw production progress, and administered development resources leveraging Jira and Confluence, accomplishing 85% of goals over four 3-week sprints

- Supervised cross-functional team by delegating weekly tasks and streamlining collaboration processes, removing roadblocks and achieving 100% team objectives on time
- Drafted testing protocol for entire game, proactively reducing 70% of game breakdowns
- Organized 8 playtesting sessions for bugs and design flaws, leading to 3x performance improvements

AIR (Series A SaaS Company), Product Management Intern

May 2022- Dec 2022

- Drove IPTC feature development by establishing product specs and Agile milestones, with designer and two engineers, addressing 20+ customers' feature requests and closing on two Enterprise deals
- Revamped customer feedback process leveraging double diamond framework, diminishing inefficiencies among insights committee and accelerating insights management time cycle by 20%
- Recommended and implemented roadmapping tool, enhancing transparency to users, aligning internal expectations, and empowering company to organize, analyze, and prioritize 2000+ product feedback
- Created 27-page product documentation, reducing Sales and Customer Service turnaround time by 10%
- Built five Jira dashboards to track sprint progress and health, boosting project transparency by 15%
- Liaised with product managers remotely on daily basis to prepare for sprint meetings and collaborate with QA team on manual testing for weekly product releases

BABSON CHINA CLUB (Nonprofit Alumni Association), UI/UX Designer

October 2021- March 2022

- Conducted four in-depth user interviews and three one-on-one stakeholder interviews to clarify user needs and business goals, identifying product value propositions and user flow
- Ascertained minimum viable product features and led four product iterations through market research, assessment of value propositions, and user testing on sketches
- Delivered and presented high-fidelity Figma prototype of web application to board, enabling club to reach larger audience and benefiting alumni in building strong networking relations

INTERNATIONAL CHINESE READING ASSOCIATION, Full-Stack Developer

April 2021- August 2021

- Managed product ideation, planning, and prototyping, creating Web APP from 0 to 1
- Built Web APP leveraging Python Django, allowing program to collect book information, recommend 100+ books to parents, and manage program donation records
- Developed frontend user interfaces and backend database for data collection and manipulation
- Integrated Google Books API for book searching and browsing

EDUCATION

University of Pennsylvania, Part-Time, Remote

August 2021- Dec 2024

- Master of Computer and Information Technology; Equivalent to Bachelor's Degree in Computer Science
- GPA: 3.94/4.00

University of Michigan Ann Arbor, Ann Arbor, MI

August 2021- May 2023

- Master of Science in Information; Human-Computer Interaction: User-Centered Agile Development Track
- GPA: 3.96/4.00

Babson College, School of Business, Wellesley, MA

August 2016- May 2020

- Bachelor of Science; Business Analytics and Information Technology Management
 - GPA: 3.61/4.00 – Senior Divisional Award in Information Systems; Dean's List all semesters
-

SPONSORSHIP REQUIREMENTS

- Non-U.S. citizen currently on STEM OPT under F-1 student visa until 06/2026
- H-1B sponsorship required; Day-1 Green Card support preferred
